Advertisement for Research Assistant Position at CLIMS, TISS, Mumbai

This is an excellent opportunity for individuals looking to contribute to cutting-edge research in the field of library and information management studies. We are seeking applications from highly motivated individuals to join our project. The project refers to study how digital technologies and methodologies impact scholarly activities within academic and research settings.

Position Details:

- Project Title: Digital Scholarship Practices and the Role of Libraries in Academic and Research Institutions.
- Position: Research Assistant (1 Post)
- Salary: Rs. 25,000 per month
- Duration: 10 months

Qualifications and Skills:

- Essential Educational Qualification: Doctoral Student who is pursuing a PhD at TISS but not availing any research grant or fellowship.
- Good academic records
- Strong research skills and subject knowledge
- Excellent communication skills, both written and verbal
- Proficiency in the use of any research software

Duties and Responsibilities: The Research Assistant will be responsible for various tasks related to the research project, including but not limited to:

- Conducting literature searches and content analysis
- Developing research tools, conducting surveys and analyzing research data
- Providing computational research support
- Performing studies relevant to the research project
- Traveling to different locations via various modes of transport to collect primary and secondary data
- Undertaking other research-related duties as assigned by the project supervisor

Application Process: Interested candidates who meet the above-mentioned qualifications and requirements are invited to submit their Resume/CV along with a letter of interest to: akhilesh.yadav@tiss.edu with the subject “**Application for the position of Research Assistant.**” The deadline for submission is **February 29, 2024**. Shortlisted candidates will be contacted for an interview. Please note that no TA/DA will be provided for attending the interview.

Sincerely,

Principal Investigator
